

HOW EXTREME E'S ELECTRIC RACE CAR CHARGER WORKS

3 Battery

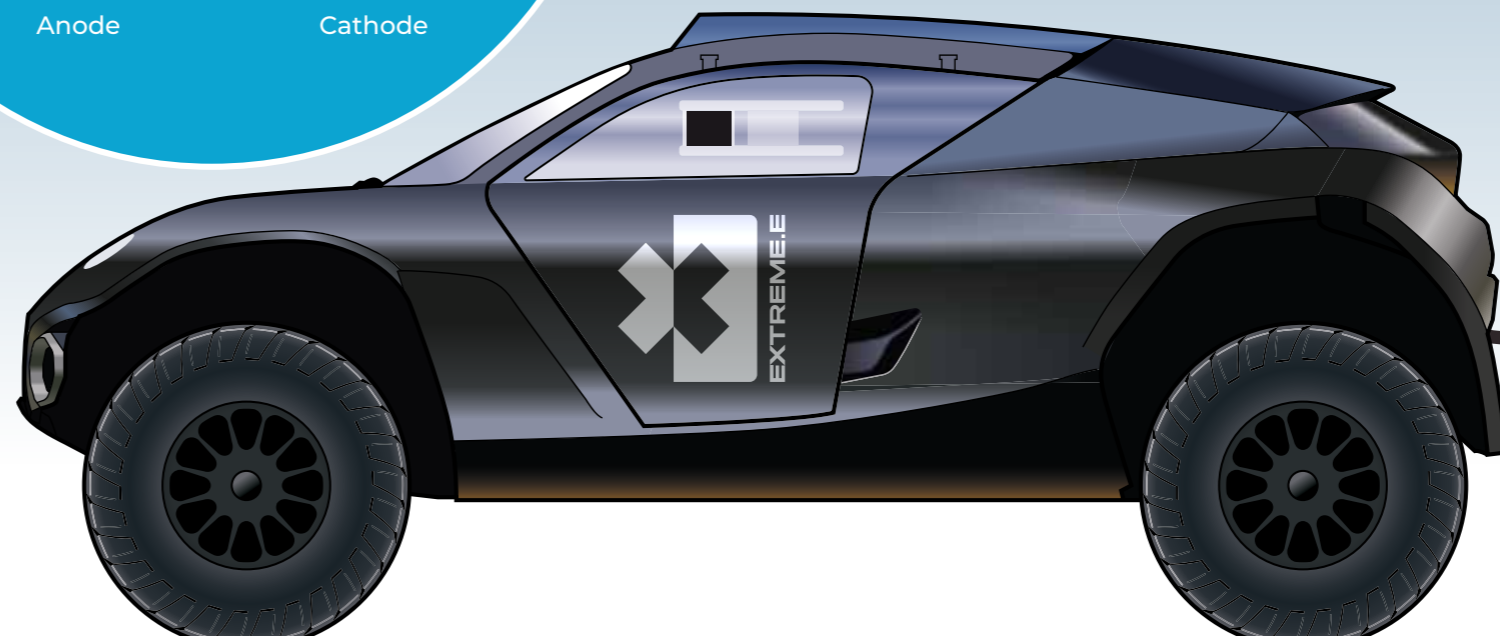

Battery provides 'on demand' power for all race teams across each race weekend

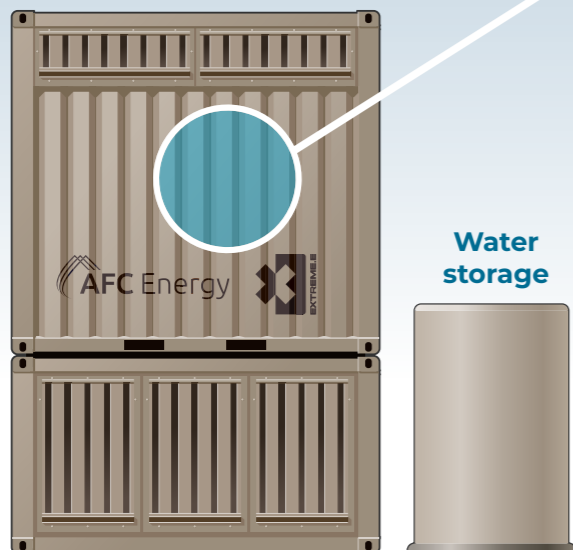

4 Charger

AC 415V supply

Extreme E's teams draw electricity to provide the power they need

2 Fuel Cell
Hydrogen and air is fed into a fuel cell, creating electricity. Water is also created as a by-product. The cell is left on continually to charge the battery

DC power to Battery
